

MEETING REPORT #7

Date: 30 November 2004

Time: 11.00- 11.30

Location: Computer Engineering Canteen

Attendees: All members

Purpose:

- After the meeting with the assistant, change the plan of work to be done up to the initial design report.
- Refine the assignment of some of the tasks to each of the group members.

Details on mentioned topics and decisions:

- Since our assistant says that there is no need to construct the GUIs and database tables before the initial design report, we decided to make a new assignment of tasks to be done. These are:
 1. Use cases will be constructed and drawn by hatice
 2. Class diagrams will be constructed by hatice and gokcen.
 3. Sequence diagrams will be constructed by gokcen and nazmiye.
 4. Class and sequence diagrams will be drawn by gokcen.
 5. Structure chart will be constructed and drawn by ahmet.
- And also, since our assistant want us create database tables before the next assistant meeting, nazmiye is assigned to decide on the tables and create them before the assistant meeting.
