**November 11, 2005**  
**WEEKLY REPORT**

This week and previous week we all worked on preparing the analysis report. Apart from this, we have not done much after submitting the report. During the report preparation we have divided work into four.

- Aysun Başçetinçelik

She made the project plan and prepared the Gantt Chart. She also helped making of Use Cases.

- Acar Erkek

He wrote the specifications depending on our meetings and also prepared the software & hardware requirements.

- Çağıl Öztürk

She wrote the introduction part and drew Use Case diagrams and DFDs.

- Mennan Güder

His main part was the documentation of research.

Apart from the parts everybody did on their own, they also helped each other.
