## Anafor Yazılım 5th Meeting Report

## 29.11.2006

## Group Members:

## Saliha ALTUNSOY

## Candan CEYLAN

## Canan ESKİ

## Yavuz GÖKIRMAK

## Duygu GÖRGÜN

**PERSONAL WEEKLY REPORTS:**

*Saliha ALTUNSOY*
*Project Leader, Gate Keeper*
In the last two weeks, I had the chance to examine an editor in a detailed manner while doing my projects. I also examined some text editors working on Linux, such as Bluefish. Moreover, last week we talked with Nihan Çiçekli about our structural design and database applications part. She advised some resources which can be helpful. This week we were busy with our Compiler Project and I hope the things we learned will help us in this Project.

*Candan CEYLAN*
*Timekeeper, Optimist*
In two weeks period, for initial design report I have made some researchs, I have finished our web site. As a group, we talked with Nihan Çiçekli about databases, application servers vs vs. She gave us advices about our structure which I think will be beneficial.

*Canan ESKİ*
*Initiator, Recorder*
For the last two weeks, I was very busy with my graph and compiler projects and exams. But this gave me chance to learn more about compilers which will be very beneficial in our project. I worked with Eclipse for both of my projects. We will use Eclipse in our senior project too, so it was very good that I get used to using it efficiently. I also examined it as an IDE and made conclusions about what a user expects from an IDE and what it provides to users. We made a meeting with Nihan Kesim Çiçekli. She gave as information about multi tier databases and application server.

*Yavuz GÖKIRMAK*
*Optimist, Initiator*
During last two weeks I had chance to practice on java while my compiler and grapics projects. I understood how to design a compiler clearly. This may help us in project. In addition  we talked with Nihan Çiçekli about our design .

*Duygu GÖRGÜN*

*Devil's Advocate, Summarizer*

In last two weeks, we were too busy with our compiler and graphics projects and exams. So I could not study for our senior project enough. We talked with Nihan Kesim Çiçekli about our project and about multi tier databases and application server. She offered us some new desicions. Besides this, I talked with Mustafa Yüksel, who graduates from our department last year and working at SRDC. We will have a meeting on next week.

**LIVING SCHEDULE**

| Task | Start Date | Expected Finish Date | Assigned to |
|------|-----------|---------------------|-------------|
| To update the architectural design | 20.11.2006 | 06.12.2006 | All members |
| Preparation of web site | 13.11.2006 | 01.12.2006 | Candan Ceylan |
| Preparation of initial design report | 20.11.2006 | 02.12.2006 | All members |
| Making researches on Text Editor | 15.11.2006 | 03.13.2006 | Duygu, Saliha & Canan |
| Studying on Database Connections | 15.11.2006 | 03.13.2006 | Yavuz & Candan |
