

9th MEETING REPORT

KARINCA TEKNOLOJİ

All team members attended.

Place: Computer Engineering Department, B Block, 3rd Floor, SUN Laboratory

Date/Time: 20.12.2006, 16:40 – 17:00

- We had a short meeting because all the members in our group were very busy this week with the exams and projects. We have generally talked about the presentation of our project and decided that Halil and Caner will present our project.
- We also decided that everybody will continue to the implementation of assigned to him.

WEEKLY REPORTS

Ali Caner PARMAKSIZ – Okan KÖYLÜ

We have dealt with database module of the kajax. After our discussions, the database module will be implemented in a tree-structure. We are thinking on which databases will be supported by our program kajax.

Volkan AK

This week I dealt with the editor module. I have realized a text editor with simple colorizing functionality. Also a closeable tab is built where the filename is displayed on top of it. Besides these I thought about the xml file structures for the customization of editor preferences.

Halil BALLI

This week I have dealt with the completion of the closable tabbed panes part of our editor. After Volkan has completed basic colorization part, I have completed the functionality of adding and removing the selected files from the editor using tabbed pane.
