Weekly Report 2

Last week we had two meetings. The first one was on Thursday. In this meeting started to prepare Configuration Management Plan and separated the report topics in four parts. Everyone was responsible from his/her parts.

The other meeting was on Saturday. In this meeting we finalized the Configuration Management Plan. Then we worked on CVS tutorials together. Also we talked about the implementation of the Job-seeker module. After the meeting Damir and I completed the missing parts of the web-site then put the directory.

On Monday I looked a bit the demo implementation which we prepared at the end of the first term.

Next week we will have two meetings as regular. The first meeting will be on Thursday evening. In this meeting we will start the implementation of the Job-seeker module.

On Saturday, Damir and I will continue on the Job-seeker module implementation.

Emrah Uyaroglu/AIVA

This week we held two meetings. At the first meeting which was on Thursday, we focused on the Configuration Management Plan. At the second meeting which was held on Saturday the main issues were CVS, and rest of the configuration management plan. We had divided the preparation of the Configuration Management Plan into separate parts therefore we the second meeting was the time to form the CMP report as a whole. We also reviewed the design of the Job seeker module in order to begin development.

For the following week we arranged two meetings but because of the meeting that is planned to be held at Friday with SoftwareAG, we want to make sure that we have all the questions to be asked to the SoftwareAG ready. Therefore we may meet more than twice.

Derya Gulerarslan AIVA

First meeting of this week is at Thursday, we shared the topics of Configuration Management Plan and started to work on it.

Second one was at Saturday, in which we finalized Configuration Management Plan. I and Damir had research on CVS. All group worked on CVS setup.

Next week, we will also have two meetings. First one will be at Thursday. I will work on the implementation of Job-Seeker Module Interface. At second meeting, I will continue on it.
