This week, I prepared the PowerPoint and the demo for the presentation of the project. And I was assigned the contact list and friend request part of the project. I started working on it and it is still going on. For the next week I will completely concentrate on that part.

Mustafa öçelli

I was prepared for the final presentation in this week. Moreover, I studied on the tab problem of the message screen. We gave up putting tabs in scroll. We think that there would be combobox for that purpose. We still work on it. Hopefully, we finished it next week.
