PROJECT MEETING REPORT 8

19.04.2008

AQUT

Anatolian QUalified Technology

Meeting summary

This week, we can say that we try to complete works that were not finished last week. Mainly, we have focused on the database issues of the note module and the new tab issue for the instant messaging environment. Besides that, we have made progress about the other issues of the project. Next week, we are planning to complete about the instant messaging problems and database support for the note module of the project.

Individual Reports

Şevket Dokgöz

This week, I have studied on. I succeed that a user could reach the webpage of the other user chatting with him/her on his/her browser. Also, I have helped Mustafa for the adaptation of the tab container to message box.

Mustafa Çöçelli

This week, I have focused on adapting multi tab to our application's message screen. Now, I try to succeed that a user can have a chat with different users on different tabs.

Mehmet Ali Özkeskin

This week, mostly, I worked on the note module. Now, a user can leave a note to the position of the webpage that he/she wants. I do that by determining the coordinates of the mouse click. Also, I am study on database support for the note module.

Uğur Irmak

This week, I have focused on the database improvement of the project with Mali. Firstly, we thought that we could handle with this with Ajax technology. We have faced with some problem with that. We are thinking different approaches for that issue. Hopefully, we'll achieve next week.
