Weekly Report #1

This Week:

In company meetings we outlined our analysis report and decided our roles about report for the next week. Many documents were reviewed and discussed.

Kürşat ÖZER	I searched about wireless communication. Web page is renewed. Living schedule is updated.
Gözde KIRDAR	Architecture of embedded Linux and Linux kernel are studied. Common knowledge about these is gained.
Ümit SİVRİ	Embedded inside the AP-400 is researched. I have tried to understand file structure and commands.
Emre KOŞTUR	I studied Linux kernel from Embedded Linux book. I bought usb to RS232 converter.

Next Week:

Firstly, team will research for the previously assigned parts of analysis report, individually. Secondly, all the prepared parts will be combined and a draft will be formed. Lastly, the final report will be prepared and checked by all members of company, so that any inconsistencies will be pre-eliminated.
