

**FREELANCERS**  
**WEEKLY REPORT#11**  
**10.05.2008**

**Group(this week):**

Everyone has done his job that he was assigned to by the short time plan for final package.

**Yağız:**

This week I have worked on gui designs. I have started preparing interfaces for dictionary. In addition, I have made a short term plan for the rest of the semester.

**Caner:**

This week I have started testings and reports.

**Kutlu:**

This week I have been working on documents and photos related classes.

**Serhat:**

This week, I have created chat windows by using exttld and extjs. Also, I created the rating window.

**Group(next week):**

Next week everyone will be dealing with jobs that are assigned to him. Next week Yağız will be continuing dealing with integration of Dictionary and gui. Serhat will integrate chat window and rating window to w-expert. Kutlu will be working on the photo upload and download issues within the project, involving the photo paths and properties in database. Caner will continue testings and start the "User Manual" for customers.
