FREELANCERS
WEEKLY REPORT#13
24.05.2008

Group(this week):

Everyone has done his job that he was assigned to by the short time plan for final package.

Yağız:

This week I have worked on the interface of document sharing. Furthermore, I have helped Serhat with instant messaging module.

Caner:

This week I have transported our database from db4free.net to SVN repository of AGM Lab.

Kutlu:

This week I have dealt with the authentication issues to the Openfire. We have registered user manually so far but in the final package user will be able to make authentication to the Server.

Serhat:

This week, I have dealt with the instant messaging of an expert and a user.

Group(next week):

Next week everyone will be dealing with jobs that are assigned to him. Next week Yağız will be dealing with photo sharing interfaces. Serhat will integrate chat window and complete the instant messaging module. Kutlu will be helping for the integration of the system, and preparing the necessary jsp files. Next week Caner will continue testings.
