After the release of the first version, the development speed has come to a steady state. The project has become more durable and design changes are out of question now.

**Tahir Bilal**

Structure improvements, and new templates.

**Onur Deniz**

Started to design a google-like search on reports.

**Soner Kara**

Some bug fixes, and new preprocessor features.

**M.Mert Karadağlı**

Database improvements and bug fixes.
