DEMO - 3
What we have done…

- Elif has started to use Geokit (our GIS tool) in her implementation of A*.
- Duygu Altınok has started to use Geokit in her implementation of D*.
- Duygu Yapa has implemented merging of more than one raster maps. And marking a coordinate on 2D visualization.
2D Visualization – merge capability

Two merged dt0 files
What we have done…

- Ayşe has integrated the 2D Visualization that Duygu Yapa has developed with the GUI.
- She has implemented Weather module. If Internet connection is available and the day specified is in 10-days range, the weather information can be taken from Internet. (using weather.com’s API)
GUI-2D Visualization Integration

2D visualization is added to GUI
