## *CENG 491 - Weekly Progress Report 6 – Bug Busters*

---

### Work Done:

- Işıl has downloaded JTrac and has examine the features of this tool.
- Caner has implemented auto activation e-mail generation and stored the data securely in encrypted form.
- Çağrı looked for a GPS plug-in of AutoCAD Map 3D.
- Burkay got more familiar to AutoCAD Map 3D.
- Blog page is updated.

### Work to Do:

- Işıl and Çağrı will search how to import an AutoCAD Map 3D file (a dwg file) into java and run a sample program within a browser.
- Caner will start sketching the user interfaces on paper.
- Burkay will start constructing the railway map of Turkey in AutoCAD Map 3D.
