# Dispososofia v1.0

# User's Manual

© 2013 Çiftçiler

## **1. General Information**

People often give themselves over gathering with the motivation of collectionist or they just store up at the thought of future needs. This condition reveals sometimes as a classic collections, such as stamp, banknote and book; but mostly as an extraordinary collections, as medicines and drugs be kept in cabinets, messy cooking recipes noted on a cooking book or a notebook.

By the application, Dispososofia, user takes an opportunity of organizing their collections on their mobile devices. If they wish, they can also announce their collection on their Facebook accounts.

User may look their wanted items on other user's junky list to fulfill their worthy collections. Dispososofia is exactly what open-minded users are looking. You can create your own collection type and experience a well-organized collection management.

To check the features of Dispososofia you can watch it on the following link:

http://senior.ceng.metu.edu.tr/2013/ciftciler/video.html

### 2. Installation and System Summary

Dsipososofia can be downloaded on

http://senior.ceng.metu.edu.tr/2013/ciftciler/app/Dispososofia.apk

When downloaded file is executed, installation starts spontaneously. The time that download of 2 .37 MB file needs depends on the connection speed of your network. Dispososofia runs on internal memory of a mobile device which is powered by Android 2.3-Gingerbread. Development and test processes are run on Gingerbread so it may not run properly on other operating systems.

Network connection is essential since it do not keep any data on local device and needs to communicate with database server.

### **3. Getting Started**

- When you run Dispososofia, it check whether a network connection exists or not and instruct user by a toast message shown at the bottom of the screen.
  - If a connection does not exist then execution terminates.
  - If a network connection exists, directed to authentication.

- 1. Edit box to type a registered username
