DATE OF MEETING: 12/11/2004

PARTICIPATION: All members

AGENDA OF MEETING

Self-evaluation of the analysis report, designation of the work that will be done for design part of the project. Arranging customer meetings, with the analysis report to have better idea before the design step. Since we are about to finalize the platform analysis that will be used for project, we will arrange a meeting with Microsoft.

SUMMARY and RESULTS of MEETING

First of all, we had self evaluated the work done by each other with a objective look. But we all saw that we all done our bests up to now, and thanked each other. Another decision that was derived was that, Since we were about to have Ramazan Bayram, we determined to go to customer visits for both bayram celebrations and their final ideas about our project. We will go them with technical details we have so far to be more attractive. Finally, to get better knowledge about the Microsoft platforms we agreed on to have a meeting with Microsoft's stuff and try to finalize the decision for the platforms that we are going to use for RAS-2005 project.

NEXT MEETING TIME DECIDED: 19/11/2004

NOTE: For ours and the projects goods all should attend the meetings.

One with additional meeting request should inform others before 1 day of the meeting that he wants to be held on.

Thanks and Best Regards to all participators
