Weekly Report - 7

Selçuk TUNÇ
e1298348

I looked to the GDI+ classes and some of .Net classes that were developed by using C++, that we will use these classes while developing user interface. Also I have done simple things by Open Scene Graph.

Akin Ercan ÜRET
e1298405

I investigated mainly the .NET development Environment. I made small user interfaces to learn the usage of graphical components. I tried to learn how to run managed and unmanaged C++ code together.

Çağatay TURKAY
e1298355

For today we had to complete database project with Ercan. Moreover we have graph project and I have done some parts of the project, so I couldn't deal with the senior project.

Sinan MUTLU
e1298025

I haven't done anything about the senior project because of the algorithm, computer organization and file structures homework.
