## **INTRODUCTION**

This week as a group we had three important topics. First one was the preparation of GUI. So all the group members studied Java and made a search on how the GUI of a Development Studio is. Secondly we decided on the platform in which we will write and execute our project code. We made search on forums and get advice from experts. Finally we decided on Eclipse according to the results. Thirdly we decided that our DFD needs some revision. We made discussions on that.

## **PERSONAL WEEKLY REPORTS:**

*Saliha ALTUNSOY*

*Project Leader, Gate Keeper*

This week, our job was to decide on the Java IDE use. And we decided to use Eclipse platform. I installed Java SDK and Eclipse IDE. I wrote some sample codes to test my Java software. Then, I made searches on text editor concept. How to integrate a text editor into our GUI and what are the concepts to be taken into consideration were the issues to pay attention. Moreover, we made a labor of division again for the initial design report and for the following two weeks.

*Candan CEYLAN*

*Timekeeper, Optimist*

This week, since I have got 5 midterms, I didn't much time to look at the project. But, I wrote small code fragments in Java, for graphical user interface I have examined the javax.swing, JFrame, JMenuBar, etc... In addition to that, I continued to work on the website, I hope it will be online soon...

*Canan ESKİ*

*Initiator, Recorder*

This week we decided on Eclipse to use in order to run our project code. So I installed Eclipse on my computer and run some sample codes to get used to it. I also made contribution to GUI preparation. We have also taken advice from people who have knowledge on web service. We also decided on issues to be prepared in two weeks time.

*Yavuz GÖKIRMAK*

*Optimist, Initiator*

This week I have coded a simple interface. I have studied about java GUI and make some search about preprepared compenents as editor, tree view... etc. I have read tutorials about advanced java programming in order to create a good jobin project.

*Duygu GÖRGÜN*

*Devil's Advocate, Summarizer*

This week, we decided which editor we are going to use. Before this, I set up netbeans, eclipse and Jdeveloper, I read comparisons about them and we shared our ideas. Eclipse is our decision. Then I made an interface using dokuwiki in order to arrange plans more clearly and communicate. Every team member enters what she/he did and will do through this interface. In addition, my friends and I tried to build the GUI basicly.

## **LIVING SCHEDULE**

<b>Task</b>	<b>Start Date</b>	<b>Expected Finish Date</b>	<b>Assigned to</b>
To update the architectural design	20.11.2006	29.11.2006	All members
Preparation of web site	13.11.2006	24.11.2006	Candan Ceylan
Preparation of initial design report	20.11.2006	02.12.2006	All members
Making researches on Text Editor	15.11.2006	03.13.2006	Duygu, Saliha & Canan
Studying on Database Connections	15.11.2006	03.13.2006	Yavuz & Candan
