PERSONAL WEEKLY REPORTS:

Saliha ALTUNSOY

Project Leader, Gate Keeper

This week, I made searches on JavaScript parsers and debuggers. I saw that Mozilla has projects on these issues. I read the documentations about them and I am trying to learn how can these be implemented or embedded. In addition to this, I worked on GUI in order to make the working principle of it clearer.

Candan CEYLAN

Timekeeper, Optimist

During this week, mainly I concentrated to our Graphical User Interface, I examined and used the Java packages, classes which will be helpful to us. I learnt how to provide database connection by using Java. I saw Microsoft arranging a seminar about AJAX and I am planning to go to this seminar.

Canan ESKİ

Initiator, Recorder

This week I have continued to develop our GUI with Candan. I also made search on how to do our web site. We may be using Mambo or such kind of a tool for that purpose but we haven't decided yet.

Yavuz GÖKIRMAK

Optimist, Initiator

This week I have established database connections and tried to integrate database related classes into system. I also have made searches about file transfer, and found some projects that can be integrated into our system. I can see that file transfer can be handled by using java packages.

Duygu GÖRGÜN

Devil's Advocate, Summarizer

This week, I looked for text highlighting, I found some Javascript codes about this. Besides these, I read some tutorials about AJAX. I watched a video done by a coder who is

generaitong codes for google. He is simply making a simple example with and without AJAX in order to show the difference. I looked for some Javascript e-books and downloaded them.

LIVING SCHEDULE

Task	Start Date	Expected Finish Date	Assigned to
Preparation of web site	12.11.2006	06.01.2006	Duygu & Canan
Development of functional GUI	20.11.2006	28.12.2006	Candan, Saliha & Canan
Making researches on Text Editor	15.11.2006	26.12.2006	Duygu, Yavuz & Saliha
Studying on Database Connections	15.11.2006	22.12.2006	Yavuz & Candan
