CEng 491 SENIOR PROJECT
FALL 2006

Weekly Report
07.12.2006 - 20.12.2006

Fulya Oktay – 1347756

Last week, I improved the toolbar functionality and attended a seminar about AJAX. This week I couldn't do anything because of the deadlines of other projects and homework.

Aylin KÖSTEKLİ – 1347699

This week, we have tried to improve our GUI's functionalities. I have implemented some toolbar icons. Because of other projects, I couldn't concentrate on our project. I also have attended a seminar about AJAX.

Mustafa Azak – 1347178

Last week, I also attended the AJAX seminar. In addition, I make changes on Palette view of our product. Moreover, I tried to implement open file functionality with double click on the JTree in Project and Workspace Views but I haven't finished it .To conclude, I could not spend much time on our project because of the reasons that Fulya mentioned.

Tayfun Tekin – 1347996

This week, I have implemented all Menu shortcuts of our ide. There are two types of shortcuts in our program, these are:

1 - Menu shortcuts which are triggered by ALT + one of the letter of menu label.(mostly first letter) which is underlined. (ex: **ALT** -> **F**ile -> **S**ave File). This is implemented by Java Menu Mnemonic property.

2 – Menu shortcuts which are triggered by keyboard combinations.(ex: **CTRL + N** -> New File, **CTRL + SHIFT + N** -> New Project or **F1-12, DELETE**,… buttons). This is implemented by Java Menu Accelerator property.

Also, I have implemented PopUp Menu which is appeared when a user right clicks on Editor Panel. Also, I attended AJAX Seminar organized by Microsoft.

A. Görkem Ekmekci – 1347392

Within the past two weeks, I improved the design of text view, browser view and design view classes and implemented the part that when user makes a change in one view and than switches to another view changes are seen. Also I attended Microsoft's seminar about AJAX. I couldn't do much about the project because of our current workload.
