

CENG492
Senior Design Project
Weekly Report 10

Last week we had two meetings. First of them was on Sunday. In this meeting we tried to solve the problems of Eclipse like server and JavaBeans. The other meeting was on Monday. In this meeting we studied on web services in Eclipse.

Next week we plan to have four meetings. In these meetings we will implement job-seeker and employer modules. We will prepare second version of our project. We will make some changes on our interface design.
