**28.02.2008-06.03.2008 Weekly Report 1**

We have started to create the interfaces of the Results Section of radiology reports. ResultsSectionMiner, FindingsResultsAssociator, ConsultationSuggestionFinder and ReportsNormalityFinder are the modules that we will implement.

Esra : FindingsResultsAssociator  
Makbule : ReportsNormalityFinder  
Çiğdem : ConsultationSuggestionFinder  
İpek : ResultsSectionMiner

We all started to analyse “data” for testing issue. We will use these information to see our success during the semester.

We began to write Configuration Management Plan.

Kerem is preparing our living schedule, gannt chart, and adding some additional tasks for our gannt chart.
