

WEEKLY PROGRESS REPORT

Week Reported: 23.04.12-02.05.12

Progress:

This week we shared middle-quest among eachother. Since there are three quests one member was remaining and also there was a one incomplete task. So I wanted to finish that task. I put the visual of solution line and a ok button to the scene and made it is understandable when the player wins by creating one more script and adding more variables to other scripts. Now the task can be played. It only needs further detailed review to be in a finalized situation after examining the feedbacks.
