**Week Reported: 08.05.12-14.05.12**

### **Progress:**

This week we prepared for the test. We tried to determine them and shared for fixing. Since we have one project to work on we will pass the game when one is finished. I will have it after Mehmet and try to fix as many bugs as I can. We also had a review meeting with Volkan Uysal. We determined every missing point in the game and asked him to have them as we review it. I also did some visual research for Volkan and I contacted Dicle Kortantamer for Task1 of Level2.
