

### **To-do List for 5.11.2012**

Zeynep Mavuş & Şerafettin Öztürk:

- How to use GPIO ports/outputs (or alternatives) in Linux environment for Zigbee controlling.
- Arranging a meeting with Deniz Kaya (Arcelik) for next week.
- Testing of department's Trac & SVN services.

Abdullah Hasan Taher Bayraktar & Anıl Ulutürk:

- Reading datasheet and Z-stack protocols to be used for communication on Zigbee devices (<https://www.sparkfun.com/products/8767>)
- Accumulate knowledge about how to control coordinator & end devices simultaneously.
- Getting Zigbee devices and asking for a quick tutorial from Fatih Gökçe / KOVAN lab members.
