

Sprint Evaluation

As a team we did some research about Beeminder usage field. Also we found some informations about opponent of Beeminder which do same stuffs. After getting useful knowledge we made a start to our project by learning Android OS from tutorials. We also did an appointment with related professor (Uluc Saranli) to get detailed idea about project. We don't have any update for our plans, but as you know our project is based on creativity so in the future we may make an update on our plans due to future improvement.

Team evaluation

Team members try to tolerate each others and we pay importance to work together for compiling planned tasks. Till now we did five meetings and according to our plans we decided to do meeting for every week regularly. For every week, we are planing arrange appointment with professor, too. As a team we think that we selected correct cooperation strategy.

Task	Assigned Member	1 st Week			2 nd Week				3 rd Week			
Research about Beeminder	Rufet Eyvazli, Esragul Korkmaz, Songul Abuzar, Alihuseyn Gulmammadov											
Gathering information about opponents	Rufet Eyvazli, Esragul Korkmaz, Songul Abuzar, Alihuseyn Gulmammadov
