

ReRequest

PROBLEM

Traditional learning requires testing knowledge. These tests can be standard such as the SAT or GMAT, or field-specific, such as a classic History exam.

Generating questions takes time, effort, and knowledge of the subject.

The quality and quantity of questions lie at the mercy of time.

FEATURES

Generating Questions and Answers

Fetching Large sets of Questions and Answers

Account System for Different Profiles

Supporting Different Question Types

Administration of Uploaded Datasets and Model Checkpoints

Finetuning Capability with Custom Datasets

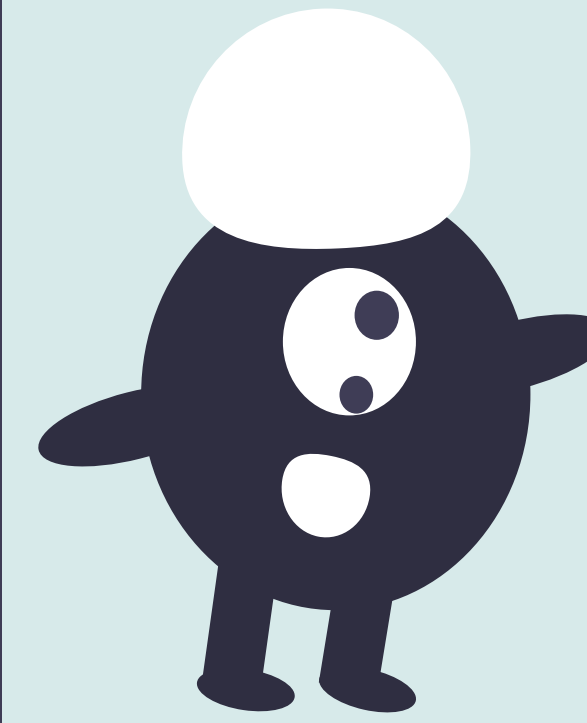

Collecting Feedback to Rank Generated Questions and Answers

Life Time Access of Generated Questions and Answers

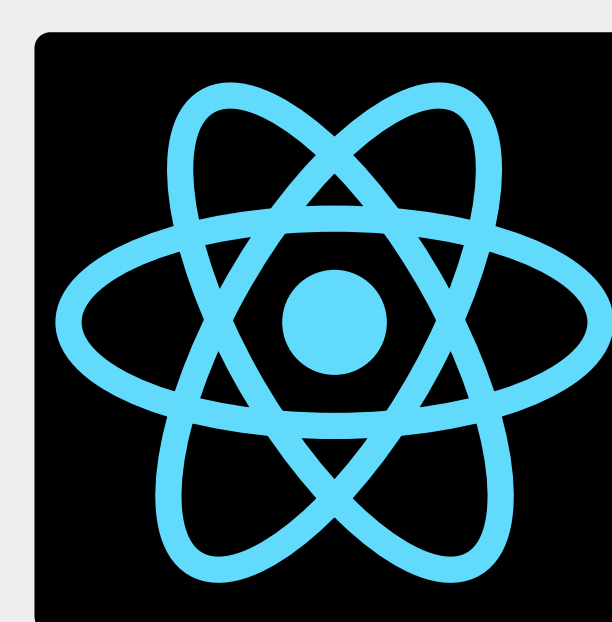

SOLUTION

A simple-to-use platform to quickly generate high-quality questions using state-of-the-art NLP models.
