

AI-Driven Dynamic Interviews for the Modern Workforce

Problem

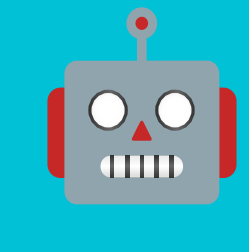

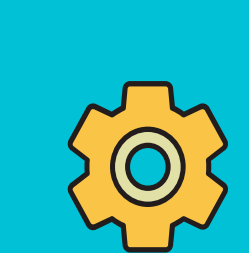

-  HR spends countless hours on manual screening.
-  Standard forms fail to measure a candidate's true potential.
-  Long wait times and biased, delayed feedback.

Solution

-  LLMs handle the initial interview phase instantly.
-  AI adjusts questions on the fly based on responses.
-  HR gets immediate, unbiased evaluations and scores.

Key Features

-  Adaptive Question Generation
-  Voice & Text Modalities
-  Automated Rubric Grading
-  Asynchronous AI Processing
-  Dedicated HR & Candidate Portals
-  Comprehensive Dashboard Reports
