

HemenPark

Park smarter. Drive less.

The Problem

Drivers waste up to 10 minutes circling for parking, burning fuel, time, and patience.

Our Solution

One live map. Three real-time sources. AI-powered, token-rewarded.

Three Real-Time Data Sources

Public APIs
İSPARK & İZUM
live data feed

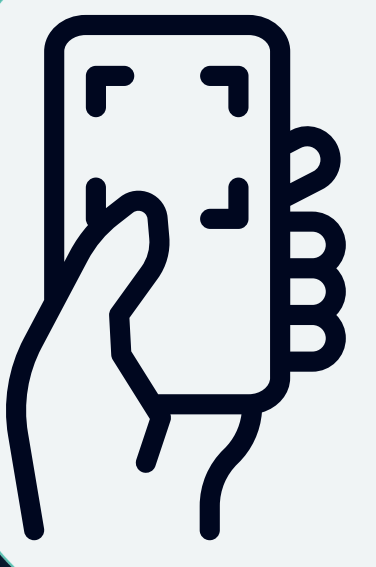

Edge-AI Cameras
Real-time
occupancy detection

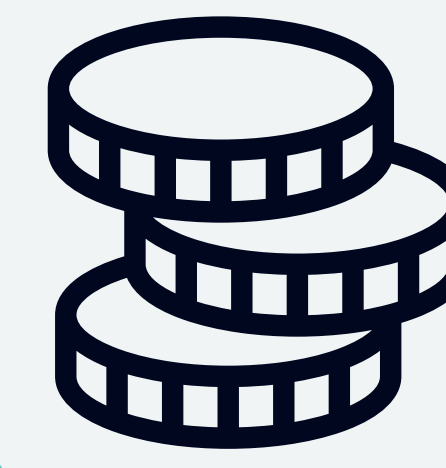

User Reports
AI-validated
user submissions

Key Features

Snap & Earn

Photograph empty spots on-device AI and Gemini validate, earn tokens

Token Economy

Earn tokens by reporting, spend them to reserve verified spots

Event Radar

Gemini scans upcoming concerts, matches, and exams that kill nearby parking

Spot Alerts

Watch a parking spot, get a push notification the moment it opens
